United Factory for Preform and Packaging

Food Safety Policy

We at, **United Factory for Preform and Packaging** are committed to implement and continually improve a food safety management system to ensure food safety of our products dispatched to our customer. We aim to be the industry leader in the provision of **“Manufacture & Supply of Preforms and Closures”** by providing total client satisfaction through teamwork, quality excellence, continual improvement, economic value, safe and timely completion of our projects. Furthermore, our policy is to achieve sustained profitable growth by providing services which consistently satisfy customer expectations on Quality, Food Safety and Reliability.

United Factory for Preform and Packaging ‘s commitment to Food Safety is as follows:

- Ensure all necessary steps are taken throughout production process to ensure food safety, quality and fulfilment of customer expectations are maintained through systematic assessment of every step in the process in line with HACCP principles;
- Comply with all applicable statutory and regulatory requirements and applicable food safety requirements including mutually agreed customer requirements;
- To ensure sustainable food safety performance through implementation of effective food safety management systems in compliance with International Standards;
- To review food safety policies & procedures continuously for the effective management of risks and hazards associated with changes in products, processes and technologies;
- To set measurable Food Safety Objectives for individual departments and operations to ensure continual improvement and compliance with International Standards;
- Provision of adequate resources including equipment, verification systems, personnel facilities and regular training of employees to ensure highest possible standards during establishment & maintenance of Food Safety Management Systems.

This policy & its requirement shall be communicated and made available to all its employees, clients, contractors, suppliers & partners in order to ensure it achieves its goals for Food Safety in a professional, effective & efficient manner.

All employees shall be aware of their responsibilities and comply with the Food Safety Management System requirements in line of their duties.
